24/11/66
1 April 1966

UNITED STATES INTELLIGENCE BOARD

COMMITTEE ON DOCUMENTATION

TASK TEAM I - CONTENT CONTROL

Minutes of the Fortieth Meeting, 30 March 1966

Members or Their Representatives Present

25X1 NSA

CIA

NSA

STATE

NSA

Others Present

None

1. Minutes of meetings 32 thru 39 were approved. The chairman then called for status reports on the operational tests being conducted in the agencies.

25X1 2. [] indicated that the actual testing had not yet
25X1 been initiated in NSA. However, arrangements had been made to test
25X1 systems control code applications on approximately three hundred docu-
25X1 ments. In addition, [] would also code them for control
25X1 purposes.

3. [] reported that operational testing had commenced in
25X1 DEMAQ-3. He discussed training considerations, and plans for converting
25X1 five different user statements of requirements into their content control
25X1 form. He indicated that testing should be well along by the end of next
25X1 week (8 April).

4. [] reported the status of application testing in CIA.
25X1 He included tentative findings in accordance with the questionnaire
25X1 attachment to T/I/M-32 thru 39. He also presented a list of problem

25X1 areas and questions encountered during the application testing. It was decided not to attempt to answer these at this meeting. Rather, the secretary was requested to hold these for collation with similar ones which would undoubtedly be developed during the tests still to be conducted in other agencies. After application testing was completed by all agencies, the Team would analyze all problems encountered. However, [] was asked to read the list since it might provide valuable insights to other team members in relation to their testing.

25X1 5. Mr. Whipp reported that arrangements had been made for conducting the test in State in accordance with plans reported at the previous meeting. Testing would commence shortly.

25X1 6. [] suggested that CIA would be ready to move into the dissemination test phase in the next day or two. Since at the previous meeting, discussion of dissemination test had been withheld, he wondered if it was appropriate to go ahead. Discussion ensued and [] indicated that it appeared that CIA was ready in all respects to continue into the dissemination test phase. He noted that while consistency of code application undoubtedly influenced resulting dissemination, all such coding efforts faced similar consistency problems even though they had reached operational status.

25X1 7. The next meeting of the Task Team is scheduled for 1300 hours on 12 April 1966. It will be held in Room 2 E 49, CIA Headquarters.

25X1 []
Secretary
